

Pierce College Child Development Centers

Student Fee Information

The billing for students is based on the total number of hours scheduled per day **EACH DAY** of the week. The daily options are either:

- Part Time Day: up to 5 hours per day

Or

- Full Time Day: up to 10 hours a day

The child's age, your USDA / CACFP Income Category , the number of part time days a week, and/or the number of full time days a week are the determining factors in the monthly childcare tuition.

Parents are billed monthly from the start of the quarter to the end of the quarter.

Pierce College was awarded the **CCampis grant**. Students eligible for a Pell Grant (whether or not they actually receive the grant) may also be eligible for additional assistance with payments for child care. Check with office or administrative staff for eligibility and application information

Student Fee Schedule
